

What Is The REB?

- Administrative body established by the U.S. Federal Government
- Formed to protect the rights and welfare of human subjects participating in research
- Reviews items like informed consent, risk assessment, and confidentiality
- Interacts with the institution with which it is affiliated

Our Mission

- To ensure the rights and welfare of everyone involved in NSU-sponsored research that employs human subjects
- To educate researchers and the general public about how to protect human subjects of research
- To support and promote research activities at NSU and around the world
